## (Rescue Plan for Oil affected wildlife)

We need a few drop-off locations for (in good condition with working door) animal transport crates (those typically used when transporting dogs on Air carriers) we hope to obtain from your customers. We hope to \*advertise (with your permission) our need for these crates for the rescue of oil spill contaminated wildlife. Perhaps you may offer potential diners a \$10.00 discount on the purchase of 2 dinners for their donation of a good, clean working crate. Suncoast Shrimp will reimburse you \$5.00 for every crate picked up. Our drivers will pick them up while on their routes, place them in a plastic can liner and carry them in the CAB of our trucks and then to our lot at our warehouse. We will wash, sanitize then store them for use in our own communities in the unfortunate event we need them. Should we be so fortunate to avoid such an event, we will arrange for their shipment to our neighbors in Louisiana, Mississippi, Alabama or wherever they may be needed.

I am in the process of gathering volunteers to wash & sanitize these carriers in order to prepare them for use. My daughter Marissa is consulting with her Girl Scout Troup and my son Christian is asking a few friends he already knows as being "wildlife friendly". Christina (here at the office) is researching bird rehab facilities in the middle of the State in the event our local (Suncoast Seabird Sanctuary) becomes over-burdened with animals in need of attention. Everyone here at Suncoast Shrimp will be involved in the rescue process should that become necessary.

In addition to the above, we are assembling volunteers to aid in the cleaning process of locally affected wildlife should this be necessary. We are familiarizing ourselves with the proper methods in cleaning, treating and feeding of these animals. We will pass along our findings to all interested volunteers. Please supply your e-mail addresses to us if interested.

Needed items: As taken from the "Save our Seabird, Sarasota Florida's" "Our Wish List" website
